## H2H NOTARY LLC,

We are widely experienced in estate planning document signing, witnessing, and notarizing. We offer low flat rates, and the price also includes traveling and witnessing. Since we are experienced in estate document signing, we can often get through a couple's signing of 6+ documents within 20-30 minutes error-free, properly signed, initials, witnessed, and notarized quickly. Therefore, we offer such low rates, because our experience allows us to get the whole signing done in a time frame that allows us to pass on the saved time in the form of more affordable pricing for our lawyer, and individual clients.

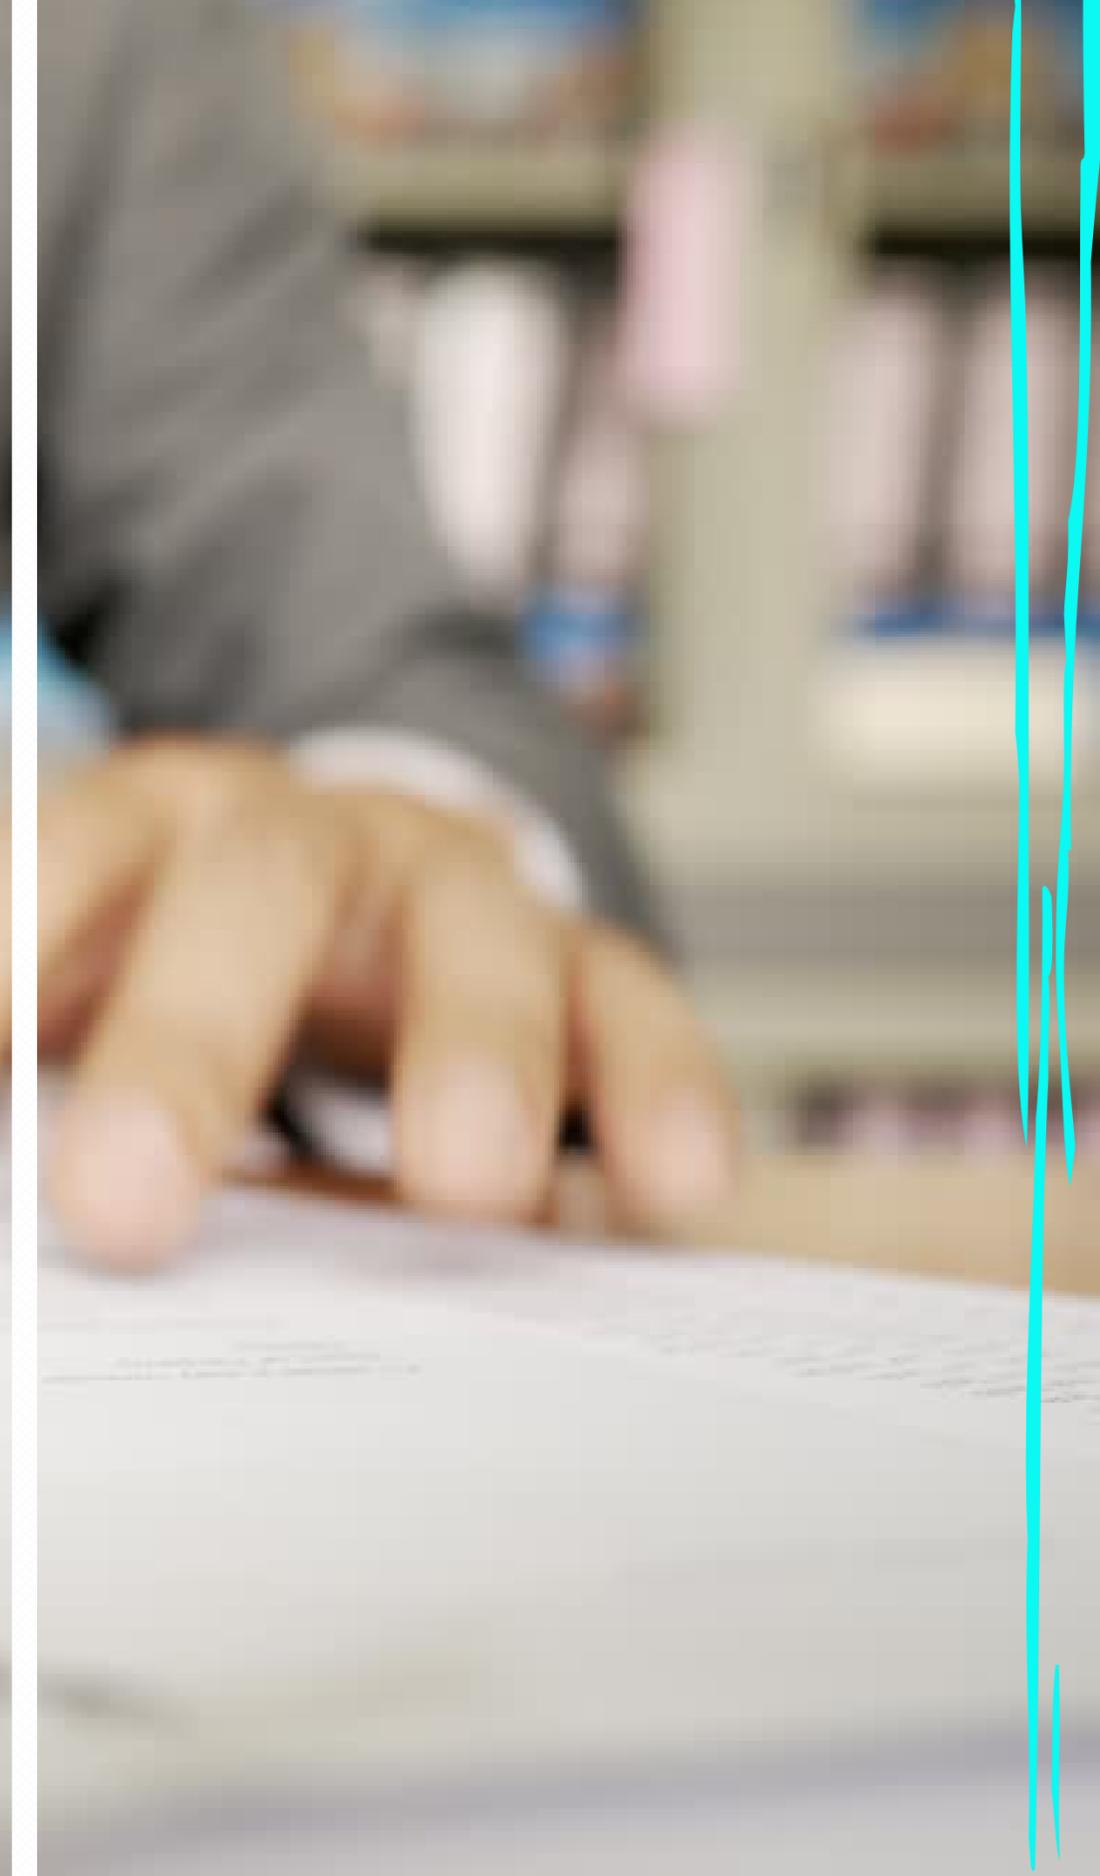

# **What Types of Documents Must Be Notarized?**

**There are a number of documents that must be notarized in order to become legal. A last will and testament is just one of many examples. Other examples include trusts, estates, powers of attorney, and most commercial loan documents.**

A close-up photograph of a hand holding a pen, positioned over a document. A blue notary seal is visible on the paper. The background is blurred, showing what appears to be a library or office setting with bookshelves.

The biggest concerns lawyers, and their clients have, is ensuring that the documents will be properly signed by all parties involved: the signers, the witnesses, and the notaries are often not familiar with the documents and procedures that are involved with executing estate planning documents.

While many notaries know how to properly execute their section of the document, they are not familiar with what to look for to ensure all dates, initials, and signatures of each of the lengthy documents have been completed prior to notarizing. If these items are missed it can cause a need to redraw and resign all the documents since they need to be consistent.
